۴	<p><b>Reading</b></p> <p>متن زیر را بخوانید و جاهای خالی جملات را با گزینه های داده شده کامل کنید.</p> <p>Bilingual is a person who can communicate through two languages nearly like a native speaker. There are different types of bilinguals. Most bilinguals have a preferred language, which they use most of the time, and then a second language, the level and use of which will differ significantly from one person to another. There are a few people whom we call "balanced bilinguals". They can speak, read or write both languages equally well. For example a child in a family who speak two languages can be called balanced bilingual.</p> <p>Bilingualism can be found in many areas of the world. Members of these communities use two (or more) languages as a matter of course. South Africa, Belgium, Wales, Ireland and Canada are some examples of countries where bilingualism exists, (This does not mean that everyone living in these countries is bilingual). People whose parents or even grandparents moved to the country and have continued to speak to their children in their own mother tongue also keep up many of their own customs and continue to speak their own language at home.</p> <ul style="list-style-type: none"> <li>• <b>Read the questions and choose the best choice.</b></li> </ul> <p>37. ۴	<p>متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.</p> <p>Environmental pollutions, caused by Human, are not a new subject. The problems of water pollution, climate change and the endangered animals have become the troubles on Earth. With today's science and technology people can do greater harms to nature and do it more quickly. On the other hand because of population growth, they have been using more natural resources to meet the needs of this large population. Not surprisingly, they have realized what they are doing, is harmful to nature. Most of them are trying to find ways to solve these problems. In fact People have started new ways of showing more respect for nature.</p> <p>Nowadays clean energy resources are widely used in many countries to keep the weather clean. For example, many countries now think that cars which burn fossil fuels should be replaced by electric cars. Electric cars don't burn gasoline in the engine, so they don't pollute the air. They use electricity stored on the car in batteries.</p> <p>Replacing fossil fuels with renewable resources of energy is the best answer to the problem of pollution. Scientists call them clean energy resources because they do not pollute the earth. Clean energy is renewable. It is made from resources that can be replaced, like wind, water, sunshine, tides, and plants. When renewable energy resources are used, the need for fossil fuels is reduced. As a result, fewer fossil fuels are consumed each year, also they are saved for the future generations.
