درس: زبان خارجه پایه: اول

مدت آزمون: ۶۰ دقیقه صفحه ۱ از ۲

A Read the passage and answer the following questions.

The polynesians were probably the best explorers in the history of the world. They traveled thousands of kilometers across the Pacific Ocean in large boats called "double canoes." They could look at the stars and know which way to go. They also understood the winds and the ocean currents. They made maps of the stars and the ocean currents.

About 4,000 years ago, a group of people lived in southern China. They were a mixture of white, black, and Mongol people. When the Chinese moved farther and farther into the south, these people needed to find safer homes.

Slowly these people left China in their double canoes and started toward the southeast. They took animals and plants with them. A group of people might arrive at an island and stay there until they had children, grandchildren, and great-grandchildren. Then a few families might start traveling again. Some canoes went one way and some another. It took hundreds of years for them to reach all of the islands in polynesia.

They understood how to sail by the stars and use the winds and ocean currents. This made them great explorers.

۱ Summarize the passage in just 50 words.
