۴	<b>Reading</b> متن زیر را بخوانید و به سوالات به صورت خواسته شده پاسخ دهید. Many countries now think that cars that burn fossil fuels should be replaced by electric cars. Electric cars don't burn gasoline in the engine, so they don't make the air dirty and unclean. They use electricity stored on the car in batteries.  The electric car is usually plugged in at night. The car can be plugged into a special charging unit even at houses. Some electric cars can be plugged right into a regular electrical wall outlet. Others need a larger outlet, like the kind that a stove or a vacuum cleaner plugs into.  The engineers are trying to make better batteries that hold more energy and last longer. To overcome the problem of charging electric cars, hybrid cars are also available. Hybrid cars combine the benefits of gasoline engines and electric motors. They can be designed to meet different goals, such as better fuel economy or more power.  47. Why don't electric cars make the air dirty and unclean? 48. When is usually the electric car plugged in? 49. Why do people use hybrid cars?  50. Electric cars use both fossil fuel and electricity.      a. True              b. False 51. Not all electric cars have batteries.                      a. True              b. False	۱۴

۴	<p>متن زیر را بخوانید و به سوالات به صورت خواسته شده پاسخ دهید.</p> <p>The size and shape of your ears show your character more than any other part of the face. Other parts of the face change shapes as we get older, but ears do not change their shapes. They only change in size.</p> <p>Reading people's character from their ears is a very old science. In the past people thought that a person's ears with color were dangerous. They also thought that the shape of the ears showed if a person was musical or not. Today, too many people believe that the size and shape of the ears help you know if a person is musical. Ears are all different, and each different thing has a meaning. Next time you look at a person, see if his or her ears are large, medium-size, or small. Look at the lobes (ترمه گوش). Ears that are always red mean that a person may get angry easily. Ears that are always cold and nearly white color mean that a person has a nervous character.</p> <p>52. When we grow up, _____.</p> <p>a. our ears will not change in size                      b. our ears will be the same size.</p> <p>c. our ears will get colder                                      d. our ears will not change in shape.</p> <p>53. If someone's ears are red, it means _____.</p> <p>a. he/she is a kind person                                      b. he/she is very happy</p> <p>c. he/she may get angry easily                                      d. he/she drinks a lot</p> <p>54. If you look at someone's ears, the right way is to see _____.</p> <p>a. his face, ears and nose                                      b. the size, color and shape</p> <p>c. his mouth, eyes and nose                                      d. the hair, eyes and color</p> <p>55. How can we find out a person has a nervous character through his/her ears?</p> <p>a. When they are cold                                      b. When they are medium-size</p> <p>c. When they are not white color                                      d. When they are musical</p>	۱۵

۴	<p>متن زیر را بخوانید و گزینه صحیح را انتخاب کنید.</p> <p>A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio' ('saying').</p> <p>There are several types of dictionaries. Dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words.</p> <p>There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English.</p>	۱۶
