## بخش اول: گرامر

### زمان‌ها و ساختار معلوم/مجهول

به طور کلی زمان در انگلیسی به چهار دسته‌ی حال، گذشته، آینده و آینده در گذشته تقسیم می‌شود، که هر یک شامل چهار گروه ساده، استمراری، کامل ساده و کامل استمراری می‌باشد. در نتیجه در زبان انگلیسی ۱۶ زمان به شرح زیر وجود دارد:

ساده	حال
استمراری	گذشته
کامل ساده	آینده
کامل استمراری	آینده در گذشته

در این مبحث، از توضیح صورت‌های دیگر زمان آینده در گذشته به دلیل پیروی از قوانین زمان آینده و نیز همپوشانی داشتن با مباحث شرطی‌ها و نقل قول غیر مستقیم خودداری شده است.

۱- حال ساده:

... + فعل ساده (مصدر بدون to) + فاعل

کاربرد زمان حال ساده:

(۱) بیان کارهای عادی و تکراری که معمولا با فیوید تکرار (every day, always, often, sometimes, never, ...) همراه است.

“Every twelve months, the Earth **circles** the Sun.”

“When **does** the train usually **leave**?”

(۲) بیان واقعیت و حقایق علمی. توجه کنید که لزومی ندارد مطلبی که گوینده فکر می‌کند درست است، حقیقت داشته باشد.

“Windows **are** made of glass.”

“New York **is** a small city.”

(۳) کارهایی که در آینده ی نزدیک به طور قطع صورت می‌گیرند (مثل جدول زمانی).

“The train **leaves** tonight at 6 PM.”  
“When **does** class **begin** tomorrow?”

(۴) کارهایی که در زمان حال یکی پس از دیگری روی می‌دهند. (first...then, after that)

“First I **get** up, then I **have** breakfast.”

(۵) بیان دستور العمل.

“**Open** your books at page 34.”

(۶) با افعال غیر حرکتی که اگرچه بیانگر مفهومی ادامه دار در زمان حال هستند، اما معمولاً با زمان حال استمراری به کار نمی‌روند. این افعال شامل افعال حسی، افعال ربطی، و افعال مربوط به ادراک و تملک هستند. مانند:

“**be, believe, belong, hate, hear, like, love, mean, prefer, remain, realize, see, seem, smell, think, understand, want, wish, ...**”

نکته: توجه کنید که در عبارات زمانی (عباراتی که با قیود زمان شروع می شوند) نمی توان از زمان آینده استفاده کرد. در نتیجه، در دو مثال بالا، زمان افعال “moves” و “leaves” به جای آینده ی ساده، حال ساده است.

(۲) به همراه افعالی که حالت استمرار ندارند، برای بیان کاری که در گذشته آغاز شده و پس از مدتی در آینده به پایان خواهد رسید.

۱۳- زمان آینده در گذشته ی ساده:

زمان آینده در گذشته می‌تواند مانند زمان آینده ی ساده با دو ساختار متفاوت به کار رود: “would” و “was/were going to”. اگرچه این دو ساختار گاهی به جای هم به کار می‌روند، اما اغلب دارای تفاوت معنایی هستند.

ساختار “would”:

... + فعل ساده (مصدر بدون to) + would/should + فاعل

“I knew you **would(not) help** him.”

ساختار “was/were going to”:

... + فعل ساده (مصدر بدون to) + going to + was/were + فاعل

“I knew you **were(not) going to go** to the party.”

کاربرد زمان آینده در گذشته ی ساده:

این زمان برای بیان کاری که در گذشته، گوینده فکر می‌کرده است در آینده روی می‌دهد، به کار می‌رود و اهمیتی ندارد که آن کار در آینده اتفاق افتاده باشد یا خیر. زمان آینده در گذشته از همان قوانین زمان آینده ی ساده پیروی می‌کند، به این صورت که “would” برای بیان تمایل یا عدم تمایل به انجام کاری و تصمیم گیری در مورد انجام کاری در لحظه ی گفتگو (voluntary action) به کار می‌رود و از “was going to” برای بیان کاری که در آینده با قصد قبلی همراه است، استفاده می‌شود. هر دو ساختار را می‌توان برای پیش بینی وقوع کاری در آینده به کار برد.

PLAN: I told you he **was going to come** to the party.

VOLUNTARY ACTION: I knew Julie **would make** dinner.

PLAN: Jane said Sam **was going to bring** his sister with him, but he came alone.

PREDICTION: I had a feeling that the vacation **was going to be** a disaster.

PROMISE: He promised he **would send** a postcard from Egypt.

نکته: توجه کنید که در عبارات زمانی از زمان آینده استفاده نمی‌شود. در نتیجه، بعد از قیود زمانی ( when, while, before, after, by the time, as ) soon as, if, unless,...، به جای زمان آینده در گذشته ی ساده از زمان گذشته ی ساده استفاده می‌شود.

“I already told Mark that when he **would arrive**, we would go out for dinner.” *Not Correct*

“I already told Mark that when he **arrived**, we would go out for dinner.” *Correct*

ساختار معلوم / مجهول:

ACTIVE: I knew John **would finish** the work by 5:00 p.m.

PASSIVE: I knew the work **would be finished** by 5:00 p.m.

ACTIVE: I thought Sally **was going to make** a beautiful dinner.

## فعل دوم بعد از فعل اول

در این مبحث تنها به بررسی افعالی می‌پردازیم که فعل بعد از آنها هم به صورت “ing” دار و هم به صورت مصدر با “to” یا بدون “to” به کار می‌رود و تفاوت معنایی ایجاد می‌کند.

۱) “remember” و “forget”:

به همراه “ing”: به گذشته اشاره دارد؛ به کارهایی که در گذشته انجام شده است. “forget...ing” اغلب به صورت عبارت “I’ll never forget...ing” و دیگر اصطلاحات با معانی مشابه به کار می‌رود.

I still **remember buying** my first bicycle.

I'll never **forget meeting** the Queen.

به همراه مصدر با "to": به آینده اشاره دارد؛ به کارهایی که شخص در لحظه ی به یاد آوردن یا فراموش کردن هنوز باید انجام دهد یا انجام می داده است.

You must **remember to fetch** Mr. Lewis from the station tomorrow.

I **forgot to buy** the soap.

(۲) "go on":

به همراه "ing": به معنی "ادامه دادن".

She **went on talking** about her illness until we all went to sleep.

به همراه مصدر با "to": به تغییر فعالیت اشاره دارد.

She stopped talking about that and **went on to describe** her other problems.

(۳) "regret":

به همراه "ing": به گذشته اشاره دارد؛ به کاری که شخص از انجام آن پشیمان است.

I **regret leaving** school at 14; it was a big mistake.

به همراه مصدر با "to": اغلب در مورد اعلام اخبار ناخوشایند به کار می رود.

We **regret to inform** passengers that the 14.50 train is one hour late.

(۴) "advise"، "permit"، "allow" و "permit":

در وجه معلوم و در صورت نداشتن مفعول، فعل دوم بعد از این افعال به صورت "ing" دار به کار می رود. در صورت وجود مفعول، فعل دوم به صورت مصدر با "to" به کار می رود.

"I wouldn't **advise taking** the car; there's nowhere to park."

"I wouldn't **advise you to take** the car; there's nowhere to park."

"We don't **allow/permit smoking** in the lecture room."

"We don't **allow/permit people to smoke** in the lecture room."

"The headmistress has **forbidden singing** in the corridors."

"The headmistress has **forbidden children to sing** in the corridors."

به صورت های مجهول این جملات توجه کنید:

"**Smoking** is not allowed/permitted in the lecture room."

"**People** are not allowed **to smoke** in the lecture room."

“Singing is forbidden.”

“Children are forbidden to sing.”

“Early booking is advised.”

“Passengers are advised to book early.”

۵) “see”, “watch”, “hear” و “to”:

بعد از این افعال، تفاوت بین “ing + مفعول” و “مصدر بدون to + مفعول” مثل تفاوت بین زمان‌های استمراری با زمان‌های ساده است. صورت “ing” دار بیانگر این است که شخص به کارهایی که در آن لحظه در حال روی دادن هستند توجه می‌کند. ساختار مصدر بدون “to” اغلب به کارهای تمام شده ای اشاره می‌کند که از ابتدا تا انتها دیده یا شنیده شده اند.

“I looked out of the window and saw Mary crossing the road.”

“I saw Mary cross the road and disappear into the post office.”

“As I passed his house I heard him practicing the piano.”

“I once heard Brendel play all the Beethoven concertos.”

۶) “try”:

به همراه “ing”: به معنی امتحان کردن؛ کاری را انجام می‌دهیم تا نتیجه ی آن را ببینیم.

“I tried sending her flowers, writing her letters, giving her presents, but she still wouldn’t speak to me.”

به همراه “ing” یا مصدر با “to”: به معنی تلاش کردن برای انجام یک کار دشوار.

“I tried to change the wheel, but my hands were too cold.”

“I tried changing the wheel, but my hands were too cold.”

۷) “mean”:

به همراه “ing”: مترادف “involve” یا “have as a result”، به معنی “متضمن بودن”.

“If you want to pass the exam, it will mean studying hard.”

به همراه مصدر با “to”: مترادف “intend”، به معنی “قصد داشتن”.

“I don’t think she means to get married for the moment.”

۸) “stop”:

بعضی از افعال مانند “stop” که فعل بعد از آن‌ها به صورت “ing” دار به کار می‌رود، می‌توانند در ساختار “مصدر با to + فعل” برای بیان هدف و منظور نیز به کار روند.

“I stopped running.” (NOT...I stopped to run.)

“I stopped to rest.” (= ... in order to rest.)

۹) “be afraid”:

برای بیان ترس از اتفاق‌های پیش‌آمده و غیر مترقبه، استفاده از ساختار “afraid of +-ing” ترجیح داده می‌شود.

“I don’t like to drive fast because I’m afraid of crashing.”

در موارد دیگر می‌توان از هر دو ساختار "afraid of +-ing" یا "مصدر با to + afraid" بدون ایجاد تفاوت معنایی استفاده کرد.

"I'm not **afraid of telling/ to tell** her the truth."

(۱۰) "sorry":

ساختارهای "sorry for/about + -ing" یا "مصدر کامل با to + sorry" برای اشاره به کارهایی در گذشته که شخص از انجام آنها پشیمان است به کار می‌رود.

"I'm **sorry for/about losing** my temper this morning."

"I'm **sorry to have woken** you up."

ساختار "مصدر با to + sorry" برای عذرخواهی کردن در مورد وضعیت کنونی به کار می‌رود.

"I'm sorry to tell you that you failed the exam."

(۱۱) "certain" و "sure":

ساختار "certain/sure of +-ing" برای اشاره به احساسات شخصی که گوینده دارد در موردش حرف می‌زند به کار می‌رود.

"You seem very **sure of passing** the exam. I hope you're right."

ساختار "مصدر با to + certain/sure" برای اشاره به احساسات خود گوینده یا نویسنده به کار می‌رود.

"The repairs are **certain to cost** more than you think." (NOT ~~The repair are certain of costing...~~ .)

"Mary is **sure to win**; the other girl doesn't have a chance."

نکته: "Mary is sure to win" به معنی "I am sure that Mary will win." می‌باشد.

## جملات شرطی

(۱) شرطی نوع اول: درباره ی کاری که ممکن است در آینده رخ دهد یا ندهد.

ساختار شرطی نوع اول:

**if + present**

**will + infinitive**

در این ساختار می‌توان از صورت‌های مختلف زمان حال و یا افعال وجهی (modals) استفاده کرد. به نمونه‌های زیر توجه کنید.

"If John **studies**, he **will pass** the test."

"If John **is studying**, he's **going to pass** the test."

"If John **has studied**, he **should pass** the test."

"If John **has been studying**, he **might pass** the test."

"If John **can study**, he **is ought to pass** the test."

همچنین می‌توان در بند جواب شرط از جملات امری یا زمان حال ساده هم استفاده کرد.

“If it **is** hot, **open** the window.”

“If you **raise** the temperature, the water **boils**.”

استفاده از هر کدام از زمان‌های اشاره شده بر پایه ی مقصود گوینده/نویسنده است و می‌توان آن‌ها را جا به جا کرد.

نکته: در این نوع شرطی می‌توان “if” را حذف کرد و فعل کمکی “should” را به اول جمله آورد. در این صورت جمله ی خبری دارای ساختار سؤالی می‌شود اما تغییری در معنای جمله به وجود نمی‌آید.

“**Should you** change your mind, ... .” (= If you should change...)

۲) شرطی نوع دوم: در باره ی کاری که احتمال روی دادن آن در زمان حال (یا آینده) وجود ندارد. به بیان دیگر، برای شرایط فرضی، خیالی یا غیرواقعی.

ساختار شرطی نوع دوم:

**if + past**

**would + infinitive without to**

در این ساختار می‌توان از صورت‌های مختلف زمان گذشته و یا افعال وجهی استفاده کرد. به نمونه‌های زیر توجه کنید.

“If John **studied**, he **would pass** the test.”

“If John **was studying**, he **could pass** the test.”

“If John **could** study, he **might pass** the test.”

از “should” هم می‌توان به جای دیگر افعال وجهی استفاده کرد.

“If John **studied**, he **should pass** the test.”

نکته: در این نوع شرطی، بعد از “if” به جای “was” از “were” استفاده می‌کنیم.

“If I **were** rich, I **would spend** all my time traveling.”

نکته: در این نوع شرطی می‌توان “if” را حذف کرد و فعل کمکی “were” را به اول جمله آورد. در این صورت جمله ی خبری دارای ساختار سؤالی می‌شود اما تغییری در معنای جمله به وجود نمی‌آید.

“**Were he** home now, you **could call** him.” (= If he were home now, ... )”

۳) شرطی نوع سوم: در مواردی که کاری در گذشته انجام نشده است و یا اتفاقی که امکان وقوع آن در زمان حال یا آینده دیگر وجود ندارد، به کار می‌رود. (گذشته ی غیر واقعی)

ساختار شرطی نوع سوم:

**if + past perfect**

**would have + past participle**

در این ساختار می‌توان به جای “would”، “should”، “could” و “might” هم استفاده کرد.

“If John **had studied**, he **would have passed** the test.”

“If John **had been studying**, he **could have passed** the test.”

“If John **had studied**, he **should have passed** the test.”

“If John **had been studying**, he **might have passed** the test.”

نکته: در این نوع شرطی می‌توان “if” را حذف کرد و فعل کمکی “had” را به اول جمله آورد. در این صورت جمله ی خبری دارای ساختار سؤالی می‌شود اما تغییری در معنای جمله به وجود نمی‌آید.

“**Had I** known you wanted to talk to me, I **wouldn’t** have left the office.” (= if I had known...)

نکته: در ساختار بالا، صورت منفی فعل، مخفف نمی‌شود.

“**Had** we **not** missed the plane, we would all have been killed in the crash.” (NOT ~~Hadn’t we missed...~~)

۴) شرطی ترکیبی: گاهی شرطی‌های غیر واقعی با هم ترکیب می‌شوند، به این معنی که زمان بند شرط با زمان بند جواب شرط، یکی نیست.

<b>PAST</b>	<b>PRESENT</b>
-------------	----------------

If I **had taken** French in high school, I **would have** more job opportunities.  
(*But I didn’t take French in high school and I don’t have many job opportunities.*)

<b>PAST</b>	<b>FUTURE</b>
-------------	---------------

If she **had signed** up for the ski trip last week, she **would be joining** us tomorrow.  
(*But she didn’t sign up for the ski trip last week and she isn’t going to join us tomorrow.*)

<b>PRESENT</b>	<b>PAST</b>
----------------	-------------

If Sam **spoke** Russian, he **would have translated** the letter for you.  
(*But Sam doesn’t speak Russian and that is why he didn’t translate the letter.*)

<b>PRESENT</b>	<b>FUTURE</b>
----------------	---------------

If Dan **weren’t** so nice, he **wouldn’t be tutoring** you in math tonight.  
(*But Dan is nice and he is going to tutor you tonight.*)

<b>FUTURE</b>	<b>PAST</b>
---------------	-------------

If I **weren’t going** on my business trip next week, I **would have accepted** that new assignment at work.  
(*But I am going to go on a business trip next week, and that is why I didn’t accept that new assignment at work.*)

<b>FUTURE</b>	<b>PRESENT</b>
---------------	----------------

If Sandy **were giving** a speech tomorrow, she **would be** very nervous.  
(*But Sandy is not going to give a speech tomorrow and that is why she is not nervous.*)

• نکات مهم دیگر:

۱) در جملات شرطی غیر از “if” می‌توان از سایر ادوات شرط نیز استفاده کرد:

“provided/providing (that), on (the) condition (that), as/so long as, even if, if only, assuming (that), suppose/supposing (that), what if, imagine...”

۲) “unless” به معنی «مگر اینکه» و مترادف “if...not” می‌باشد.

“Come tomorrow **unless** I phone.” (= **if** I do **not** phone.)

“unless” تنها می‌تواند در مواردی جایگزین “if...not” شود که مترادف “except if” باشد. اگر مفهوم “because...not” مد نظر باشد، “unless” به کار برده نمی‌شود.

“I’ll drive over and see you, **unless** the car breaks down.” (= ... **expect if** the car breaks down.)

“I’ll be surprised **if** the car doesn’t break down soon.” (NOT ~~I’ll be surprised unless the car breaks down soon~~ - I’ll be surprised **because** it doesn’t break down.)

## ضمایر موصولی

در این مبحث تنها به بررسی نکات مهم استفاده از ضمایر موصولی (who/whom/which/where/whose/when...) می‌پردازیم.

(۱) ضمیر موصولی “whose” می‌تواند جایگزین “of which” یا “that...of” (غیر رسمی) شود. رایج‌ترین ترتیب قرار گرفتن این ضمایر در جمله به صورت “of which + اسم” یا “that...of” است، اما ساختار “اسم + of which” هم صحیح می‌باشد.

“He’s written a book **whose name** I’ve forgotten.”

“He’s written a book **the name of which** I’ve forgotten.”

“He’s written a book **that** I’ve forgotten **the name of**.”

“He’s written a book **of which** I’ve forgotten **the name**.”

نکته: ساختار “of whom” + اسم برای اشاره به اشخاص متداول نیست.

a man whose name I’ve forgotten ( NOT ~~a man of whom I’ve forgotten the name~~)

نکته: صفت موصولی “whose” تنها به عنوان صفت مالکیت قبل از اسم به کار می‌رود. در موارد دیگر از ساختار “of which/whom” یا “that...of” استفاده می‌شود.

“He’s married to an actress **of whom** you may have heard. “OR”... **that** you may have heard **of**.” (NOT ~~...an actress whose you may have heard~~.)

(۲) “what” به اسمی که بعد از آن بیاید اشاره نمی‌کند، بلکه همزمان به صورت “ضمیر موصولی + اسم” عمل می‌کند و به معنی “the thing(s) which” می‌باشد. عباراتی که با “what” شروع می‌شوند می‌توانند دارای نقش فاعلی، مفعولی و متمم (بعد از افعال “to be”) باشند.

“**What she said** made me angry.” (“made” فاعل)

“I hope you’re going to give me **what I need**.” (“give” مفعول)

“This is exactly **what I wanted**.” (متمم)

نکته: “what” تنها در معنی “the thing(s) which” به کار می‌رود و به صورت یک ضمیر موصولی عادی بعد از اسم یا ضمیر به کار نمی‌رود.

“We don’t have everything **that** you ordered.” (NOT ~~...everything what~~...)

نکته: برای اشاره به کل عبارتی که قبل از ضمیر موصولی می‌آید از “which” استفاده می‌کنیم نه از “what”.

“Sally married Joe, **which** made Paul very unhappy.” (NOT ~~...what made~~...)

نکته: "what" می‌تواند به عنوان ضمیر اشاره به همراه یک اسم به کار رود.

"What money he has comes from his family." (= The money that he has...)

۳) "which" می‌تواند در عبارات وصفی، به عنوان ضمیر اشاره به همراه اسم عامی که معنای عبارت پیش از خود را تکرار می‌کند، به کار رود. این ساختار نسبتاً رسمی‌است و به ویژه در اصطلاحات خاصی مانند "in which case" و "at which point" به کار می‌رود.

"She may be late, in which case we ought to wait for her."

"He lost his temper, at which point I decided to go home."

"He spoke in Greek, which language I could only follow with difficulty."

۴) حروف اضافه می‌توانند یا قبل از ضمائر موصولی (رسمی) یا در پایان عبارات وصفی (غیر رسمی) قرار گیرند.

"He was respected by the people with whom he worked. (رسمی)

He was respected by the people (that) he worked with. (غیر رسمی)

نکته: "who" و "that" بعد از حروف اضافه قرار نمی‌گیرند.

...the people with whom he worked. (NOT ... the people with who/that he worked.)

۵) در عبارت وصفی، ضمائر کمیت (some, any, none, enough, few...) می‌توانند به همراه "of which"، "of whom" و "of whose" به کار روند. این ضمائر در بیشتر موارد قبل از "of which/whom/whose" قرار می‌گیرند، اما در ساختار بسیار رسمی می‌توانند گاهی بعد از آن‌ها نیز به کار روند.

"They picked up five boat-loads of refugees, some of whom had been at sea for several months." (OR ...of whom some had been...)

"We've tested three hundred types of boat, none of which is completely waterproof." (OR...of which none...)

"She had a teddy-bear, both of whose eyes were missing."

نکته: ساختار بالا همچنین می‌تواند با دیگر اصطلاحات کمیت، صفات برترین، "first"، "second" و "last" به کار رود.

a number of whom      three of which      half of which

the majority of whom      the youngest of whom

### ساختار پرسشی جملات خبری (inversion)

در ساختارهای زیر، فعل وجهی مستقیماً پیش از فاعل یک عبارت قرار می‌گیرد.

1) جملات پرسشی:

"Where is the concert taking place?" (NOT Where is taking place the concert?) (NOT Where the concert is taking place?)

جملات پرسشی عامیانه اغلب از این ساختار پیروی نمی‌کنند.

"You're coming tomorrow?"

جملات پرسشی غیر مستقیم نیز از این ساختار پیروی نمی‌کنند.

“I wondered what time **the film was starting.**” (NOT...~~what time was the film starting.~~)

اما در نوشتار رسمی، اغلب از “inversion” در جملات پرسشی غیر مستقیم بعد از “how” و به ویژه هنگامی که فاعل جمله طولانی است، استفاده می‌شود.

“I wondered how reliable **was the information** I had been given.”

(۲) جملات تعجبی: این جملات اغلب دارای ساختار جملات پرسشی منفی هستند.

“**Isn't it** cold?”

“**Hasn't she** got lovely eyes?”

در انگلیسی آمریکایی محاوره‌ای، جملات تعجبی اغلب دارای ساختار جملات پرسشی معمولی (غیر منفی) هستند.

“**Have you** got a surprise coming!”

“**Was I** mad!”

در ساختار ادبی، گاهی “inversion” بعد از “how” و “what” در جملات تعجبی اتفاق می‌افتد.

“How beautiful **are the flowers!**”

“What a peaceful place **is Skegness!**”

(۳) به همراه “may”: می‌تواند پیش از فاعل در جملات آرزویی به کار رود.

“**May all your wishes** come true!”

(۴) بعد از “so”، “neither” و “nor”:

در پاسخ‌های کوتاه و ساختارهای مشابه، این کلمات پیش از “فاعل + فعل وجهی” قرار می‌گیرند.

“I'm hungry. ~ **So am I.**”

“I don't like opera. ~ **Neither/Nor do I.**”

(۵) در ساختارهای ادبی، بعد از “as”، “than” و “so”:

“She was very religious, **as were most of her friends.**”

“City dwellers have a higher death rate **than do country people.**”

“**So ridiculous did he look** that everybody burst out laughing.”

(۶) در جملات شرطی هنگام حذف “if”:

“**Were she** my daughter, I would send her to the most prestigious university.” (= If she were my daughter...)

“**Had I** realized what you intended, I would have stopped you.” (= If I had realized...)

(۷) بعد از اصطلاحات منفی و محدود کننده:

هرگاه یک قید منفی برای تأکید در ابتدای جمله قرار گیرد، معمولاً از ساختار “فاعل + فعل وجهی” پیروی می‌کند.

“Under no circumstances can we cash checks.”

“Not until much later did she learn who her real father was.”

نکته: “inversion” بعد از قیود محدود کننده مانند “never”، “little”، “rarely”، “seldom”، “hardly” و “عبارات زمانی + only” نیز اتفاق می‌افتد.

“Hardly had I arrived when trouble started.”

“Only then did I understand what she meant.”

نکته: “inversion” بعد از “not far...” و “not long...” اتفاق نمی‌افتد.

“Not far from here you can see foxes.” (NOT Not far from here can you ...)

“Not long after that she got married.”

### نقل قول غیر مستقیم (indirect speech)

(۱) تغییرات زمانی بعد از افعال ناقل گذشته:

#### will → would

DIRECT: The exam **will** be difficult.

INDIRECT: They said the exam **would** be difficult.

گذشته ی ساده → حال ساده

DIRECT: I **need** help.

INDIRECT: She thought she **needed** help.

گذشته ی استمراری → حال استمراری

DIRECT: My English **is getting** better.

INDIRECT: I knew my English **was getting** better.

گذشته ی کامل → حال کامل

DIRECT: This **has been** a wonderful holiday.

INDIRECT: She told me that it **had been** a wonderful holiday.

گذشته ی کامل → گذشته ی ساده

DIRECT: Ann **grew** up in Kenya.

INDIRECT: I found out that Ann **had grown** up in Kenya.

#### can → could

DIRECT: I **can** fly!

INDIRECT: Poor boy - he thought he **could** fly.

**may → might**

DIRECT: We **may** come back early.

INDIRECT: They said they **might** come back early.

زمان‌های گذشته ی کامل تغییری نمی‌کنند.

DIRECT: I arrived late because I **had lost** the address.

INDIRECT: He said he had arrived late because he **had lost** the address.

(۲) در نقل قول غیر مستقیم، معمولاً تغییری در زمان افعال وجهی گذشته (would, could,...) صورت نمی‌گیرد.

DIRECT: It **would** be nice if we **could** meet.

INDIRECT: He said it **would** be nice if we **could** meet.

(۳) در نقل قول غیر مستقیم جملات پرسشی، فاعل پیش از فعل قرار می‌گیرد و فعل وجهی "do" به کار نمی‌رود.

DIRECT: Where's Alice?

INDIRECT: I asked **where Alice was**. (NOT...~~where was Alice~~.)

نکته: برای نقل قول پاسخ این نوع جملات نیز از همین ساختار استفاده می‌شود.

"I knew **how they felt**." (NOT...~~how did they feel~~.)

"Nobody told me **why I had to sign** the paper." (NOT...~~why did I have to sign~~...)

(۴) در نقل قول جملات پرسشی "yes/no"، از "if" یا "whether" استفاده می‌شود.

"The driver asked **if/whether** I wanted the town center."

نکته: در نقل قول غیر مستقیم جملات پرسشی، برای اشاره به زمان آینده بعد از "if" از زمان حال استفاده نمی‌کنیم.

"I'm not sure **if I'll see her tomorrow**." (NOT...~~if I see her tomorrow~~.)

(۵) "say" و "tell" می‌توانند در پاسخ نقل قول غیر مستقیم به کار روند، ولی در جملات پرسشی غیر مستقیم به کار نمی‌روند.

(NOT ~~The driver said whether I wanted the town center~~.)

اما:

"Please **say whether you want** the town center."

“I told her **what time it was**.”

۶) نقل قول‌هایی که مرتبط با افعال حرکتی (promise, agree, offer, order, advise,...) هستند، اغلب به صورت مصدر با “to” بیان می‌شوند.

“He promised **to write**.”

“She agreed **to wait** for me.”

نکته: ساختار “مصدر با to + مفعول” به همراه “ask”، “advise”، “tell”، و “order” به کار می‌رود (اما با “offer” و “promise” به کار نمی‌رود).

“I told **Andrew to be careful**.”

“I advise **you to think** again before you decide.”

۷) ساختار “مصدر با to + کلمات پرسشی” اغلب در تناظر با سؤالات مستقیمی است که به همراه “should” می‌آیند.

“He asked her **how to make** a white sauce.” (“How should I make a white sauce?”)

۸) بعد از “suggest” و گاهی بعد از “say”، از ساختار مصدر با “to” استفاده نمی‌کنیم، بلکه در این موارد “that-clauses” و معمولاً به همراه افعال وجهی، به کار برده می‌شود.

“I suggested **that he should try** the main car park.” (NOT ~~I suggested him to try...~~)

“The policeman **said that I mustn't park** there.” (NOT ~~The policeman said me not to park there.~~)

نکته: ساختار “ing” نیز در مورد بعضی افعال به کار می‌رود.

“I suggested **trying** the main car park.”

۹) زمان جملاتی که با “would” و “if” می‌آیند، بعد از افعال ناقل گذشته، تغییری نمی‌کند.

DIRECT: It **would** be best if we **started** early.

INDIRECT: He said it **would** be best if they **started** early.

اما زمان جملات شرطی غیر واقعی به صورت زیر تغییر می‌کند:

DIRECT: If I **had** any money, I **would buy** you a drink.

INDIRECT: She said if she **had had** any money, she **would have bought** me a drink. (OR she said if she **had** any money, she **would buy**...)

۱۰) سؤالاتی که با “who/what/which + be” شروع می‌شوند، می‌توانند در مورد یک فاعل یا یک متمم سؤال کنند. در نقل قول غیر مستقیم نوع اول (که ساختار “who/what/which + be” در مورد فاعل سؤال می‌کند)، ترتیب کلمات به صورت زیر است:

DIRECT: Which is my seat?

INDIRECT: She wondered **which was her seat**.

She wondered **which her seat was**.

اما در مورد نوع دوم (که ساختار “who/what/which + be” در مورد متمم سؤال می‌کند)، تنها از ساختار زیر استفاده می‌شود:

DIRECT: What's the time?

INDIRECT: She asked **what the time was**. (NOT USUALLY *She asked what was the time.*)

**ساختار و کاربرد “wish”**

(۱) "مصدر با wish + to":

"wish" در این ساختار معادل "want" و به معنی "تمایل داشتن، خواستن" است. دقت کنید که زمان‌های استمراری در این ساختار به کار نمی‌روند.

"I **wish to see** the manager, please." (NOT I'm wishing to see...)

نکته: از ساختار "مصدر با to + مفعول" نیز استفاده می‌شود.

"We do not **wish our names to appear** in the report."

ساختار "مفعول مستقیم + wish" در حالتی که به همراه مصدر با "to" نباشد، به کار نمی‌رود.

"I **want/would like an appointment** with the manager." (NOT I wish an appointment with the manager.)

(۲) "wish + that-clause"

در این ساختار، "wish" به معنای "want" نیست، بلکه برای ابراز تأسف نسبت به وضعیت موجود به کار می‌رود و به موقعیت‌های غیر واقعی و ناممکن اشاره می‌کند.

"I **wish** (that) I was more successful at my job."

"We all **wish** (that) the snow would stay forever."

نکته: برای اشاره به زمان حال یا آینده، جمله‌ی بعد از "wish" در زمان گذشته ساده صرف می‌شود.

"I wish I **spoke** French." (= It would be nice if I spoke French.)

"I wish tomorrow **was** Sunday."

نکته: در این ساختار می‌توان به جای "was" از "were" استفاده کرد، که این کاربرد رسمی‌تر است.

"I wish that I **were** more successful at my job."

نکته: برای اشاره به زمان گذشته، جمله‌ی بعد از "wish" در زمان گذشته‌ی کامل صرف می‌شود.

"I wish you **hadn't said** that."

"Now she wishes she **had gone** to university."

نکته: برای ابراز تأسف یا نارضایتی در مورد اتفاقی که در آینده رخ نخواهد داد، "would" به کار می‌رود.

"I wish you **would** stop smoking." (= Why don't you stop smoking?)

"Don't you wish that this moment **would** last forever?"

نکته: جملاتی که با "wish...wouldn't" به کار می‌روند، به اعمالی اشاره می‌کنند که در زمان حال روی می‌دهد یا در آینده روی خواهد داد.

"I wish you **wouldn't** keep making that stupid noise." (= You will keep making...)

نکته: "wish...would(n't)" می‌تواند دارای مفهوم دستوری یا درخواست انتقادی باشد. جملات زیر را با هم مقایسه کنید:

“I wish you **wouldn’t** drive so fast.” (= Please don’t drive so fast.)

“I wish you **didn’t** drive so fast.” (= I’m sorry you drive so fast.)

“I wish you **wouldn’t** work on Sundays.” (= Why don’t you stop?)

“I wish you **didn’t** work on Sundays.” (= It’s a pity.)
