it, or to show approval

Marie Curie was a Polish scientist. She was the daughter of a secondary-school teacher. His father taught her math and science when she was little. In 1891, she went to Paris to continue her studies in Physics and Math at the Sorbonne. She had a Doctor of Science degree in 1903. Then, she started teaching Physics in Sorbonne as the first woman teaching there. She discovered radium and polonium. She has won two Noble Prizes.

Did Mahsa like the book at first?

Does Iran have any famous scientists?

Can you name some Iranian scientists?

Were Mahsa and Roya in a laboratory?

Who came to the library sooner, Mahsa or Roya?

Do you know any interesting story about famous scientists?
