۴	<p>Reading This is the golden watch which my mother wants to buy.</p> <p>متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.</p> <p>For many environmentalists, the world seems to be getting worse; they have developed long lists of our main fears. Natural resources are running out, the population is growing; leaving less food to eat, animals and plants are becoming extinct in great numbers and the planet's air and water are becoming ever more polluted.</p> <p>But a quick look at the facts shows a different picture. According to the book "the limits to Growth" which was published in 1972 by a group of scientists, energy and other natural resources have become more than they were in the past. More food is now produced per each person of the world's population than any time in history. Fewer people are dying of hunger. Although animals and plants are becoming extinct, only about 0.7% of them are expected to disappear in the next 50 years, not 25-50%, which has been predicted. And finally, most forms of environmental population appear to have been increased.</p> <ul style="list-style-type: none"> • Read the questions and choose the best choice. <p>37. The main idea of this passage is....</p> <p>a) a number of animals and plants are becoming extinct</p> <p>b) animals and plants extinction are happening at very high speed</p> <p>✓ c) an increase in most forms of environmental population</p> <p>d) extinction is happening at a much higher rate, not the number that people think</p> <p>38.
