متن زیر را بخوانید و به سوالات 1 و 2 پاسخ دهید. و برای 3 و 4 گزینه مناسب را انتخاب کنید.

Isaac Newton was born on January 4, 1643 in England. He was born three months after the death of his father. Newton's mother married again and sent newton to live with his grandmother on a farm. His mother wanted to make a farmer of him but he didn't like farming. He liked math so he went to college. It was during his college years that Isaac newton invented* what is today known as calculus**. He had three laws to explain how something moved. He discovered the law*** of gravity when he saw an apple falling from a tree to the ground. Newton also explained the laws of light and color.

- Why did Newton go to college?
- What are his three laws about?
- His father died when he was three month. True False
- His mother didn't like him to go to college. True False
