Codeforces Round #365 (Div. 2)

By [Eran](#), 42 hours ago, translation,

Hi everyone!

Codeforces Round #365 (Div.2) takes place today on 4th of August at 18:05 MSK. As usual Div.1 participants can join out of competition.

I am the author of all the problems, and this is my first round on Codeforces. I advise you to read all the problems, hope you will enjoy them :)

I'd like to thank [GlebsHP](#) and [dans](#) for helping me in preparing problems, [MikeMirzayanov](#) for the great Codeforces and Polygon platforms and [IlyaLos](#) for some useful advice.

In this round you will meet Mishka, a little polar bear. She is still young, that's why she may have some problems in finding answers for difficult questions. Will you help her to cope with

→ Pay attention

The screenshot shows the Codeforces website interface. At the top, there's the Codeforces logo and navigation links like HOME, CONTESTS, GYM, etc. The main content area displays the problem title "A. Vanya and Fence" with its constraints: time limit per test: 1 second, memory limit per test: 256 megabytes, input: standard input, output: standard output. Below the constraints is the problem description in Persian, followed by a sample input and output. On the right side, there's a panel for "Codeforces Round #355 (Div. 2)" with buttons for "Finished", "Practice", and "Virtual participation".

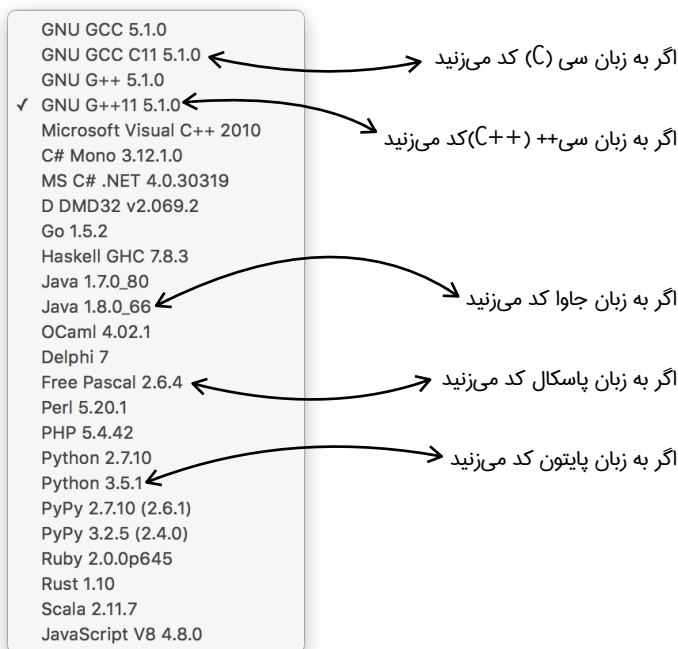

برای فرستادن کد سؤال، به لینک‌های داده شده در پی‌دی‌اف بروید تا صفحه‌ی سؤال در سایت باز شود.

This screenshot shows the bottom part of the Codeforces problem page. On the left, there are three "Examples" sections, each with an "input" and "output" field. The first example shows input "3 7" and "4 5 14" resulting in output "4". The second example shows input "6 1" and "1 1 1 1 1" resulting in output "6". The third example shows input "6 5" and "7 6 8 9 10 5" resulting in output "11". Below the examples is a "Note" section. On the right, there's a "Submit?" section with a language dropdown set to "GNU GCC 5.1.0", a "Choose file" button, and a "Submit" button. Below that is a "Problem tags" section with a tag "Implementation" and a "Contest materials" section with links for "Announcement" and "Tutorial".

به پایین اسکرول کنید تا قسمت Submit را ببینید. با کلیک روی Choose File دکتان را انتخاب کنید.

پس از انتخاب فایل کد، روی دراپ‌داونِ زبان (Language) کلیک کرده و زبان کدتان را انتخاب کنید.

و در آخر روی Submit کلیک کنید تا کدتون به سیستم داوری سایت فرستاده بشه.

با آرزوی درست بودن (اکسپت شدن) کدهای ارسالی شما!
