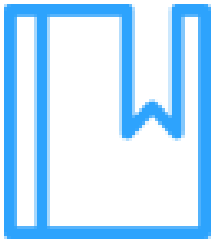
The Web's Community of Communities

Great discussions are happening here...

DISQUS

- Disqus is a free service that enables great online communities. As the web's most popular discussion system, Disqus is used by millions of websites that cover pretty much any topic imaginable. Our magic is in connecting people to stuff worth talking about.
- Millions of people are talking about what they love on Disqus. Everything from breaking news to science fiction.

DISQUS



History

We started in 2007 wanting to build something new for online communities. Our founders, Daniel Ha and Jason Yan, met in 7th grade but didn't start working on Disqus until a few years later at UC Davis (right before dropping out).

Philosophy

We believe that how you say something is just as important as what you say. You don't need to trade in your identity for the ability to speak up. The freedom to express how you want is what lets you be truly authentic.

Hmmmm.....let's take something beyond successful and stop doing it. Wonder how they will maintain the energy of the DKNY brand.

Motivation

Disqus is made for geeks by geeks. Everyone is a geek about something, whether it's music, food, or science fiction. Sometimes you just need the right space to explore it. Whatever you're into, we help you get into it.

DISQUS

- The Missing Link
- A Good Discussion is Great to Find
- Comments Count
- People Just Want to Be Heard

I've always wondered where they film car commercials. Sometimes I like the car, sometimes I don't. But I always love the scenery. Guess you can't buy scenery.

Ah, but you can take a pic along the way. This is from a quick stop along Highway 1 in Sonoma County, CA. # 3 on the list.
