13	<p>متن زیر را بخوانید و به سوالات آن با دقت پاسخ دهید.</p> <p>Reading Comprehension</p> <p>It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow older. If today we respect them, future generations will carry those values and will learn to respect us as well.</p> <p>Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents as they are our first teachers in our life.</p> <p>No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them. So it is our duty to help them when they need us because they are not young enough to handle things on their own like before.</p> <p>40- Elders have nothing to share with children. a. True b. False 41- Respecting elders starts with our teachers. a. True b. False 42- What does “they” in paragraph 2, line 3 refer to? a. our first teachers b. future generations c. our parents d. the elders 43- The opposite of “on their own” in the last line could be a. unconditionally b. separately c. individually d. together 44- Do elders deserve our appreciation? 45- How do our parents feel when we respect them?</p>	4
14	<p>متن زیر را بخوانید و به سوالات آن پاسخ دهید.</p> <p>A dictionary is a collection of words with certain information attached to each word. Dictionaries are organized alphabetically by the so called headword or stem of the word. The headword is used widely to determine the size of a dictionary. As many languages allow combining words or adding a prefix to create new words, using the stem of a word gives a fairly good estimate of the comprehensiveness of a dictionary. It is believed that a monolingual Dutch dictionary is the largest monolingual dictionary at hand. It took 134 years to finish, starting in 1864 and finishing only in 1998. Initially it was published in 40 volumes. Which dictionary is the world’s largest bilingual one? The Ethnologue estimates that there are 6909 known living languages. Based on this estimate, there are millions of possible bilingual dictionary combinations. Therefore, there is no one answer. The Muret- Sanders dictionary of English-German includes over 400000 words and expressions. The Chinese- Japanese dictionary Dai KanWajiten includes more than 50000 Chinese characters and 500000 compound words. Multilingual dictionaries offer translations to a word into several languages at once. A dictionary by Gregg Cox lists over 5 million entries in 225 languages. The Logos online dictionary features over 8 million words in over 250 languages.</p>	3

Canadians consume a lot of products made from oil. In fact, Canadians used 110 billion liters of refined oil products in 2018. Oil is an important part of daily life in Canada and the world for transportation, heating our homes, beauty products, plastics used in clothing, household products (curtains- rugs- pillows- dishes), medical supplies, asphalt, nylon, electronics (smart phones- computers- TVs), sporting goods and more.

Most Canadian oil is used for transportation fuels, essential to the mobility of people, goods, and services. According to statistics, in 2017, there were 34.3 million vehicles registered in Canada, mainly powered by gasoline, diesel, and natural gas. Refineries turn crude oil into usable products such as transportation fuels:

- Gasoline is designed for engines commonly used in private vehicles.
- Diesel is designed for engines commonly used in trucks, buses, locomotives, farming equipment. Diesel contains more energy and power density than gasoline.
- Aviation fuels are specialized petroleum-based fuels used to power various types of aircraft for commercial travel and shipping.

52- This passage is mainly about the role of in Canada.

- a. oil b. electronics c. heating d. statistics

53- The word "aviation" is closest in meaning to

- a. winter b. tide c. flight d. plant

54- Write two examples for transportation fuels in Canada.

55- What is used as fuel in private cars?
