2019 **Articles**: "Feasibility study of Acrylonitrile production plan with a capacity of 106 thousand tons in Mahshahr Petrochemical Special Economic Zone using COMFAR"

2019 **Accepted for Scientific speech** - Based on research achievements in the field of sustainable development: "Invitation to Speak at the *Eighth Annual International Conference on Energy and Environmental Sciences*", Singapore, 12 & 13<sup>th</sup>, February, 2019.

2019 **Articles**: "Feasibility study of 30 thousand tons Polypropylene production plan (in three phases of 10 thousand tons) using COMFAR"

2016 **Articles**: "Feasibility study of the production of three-layer polyethylene film with a capacity of 2.4 thousand tons along with sensitivity analysis and design of scenarios in COMFAR software"

2011 **Articles**: "Develop a strategy tailored to the economic structure of emerging countries compared to developed countries for 2011"

2010 **Articles**: "Specialized analysis of the effects of targeted subsidies on Iran's petrochemical industry"

2010 **Articles**: "SWOT analysis of the creation of a free zone between China and ASEAN Free Trade Area on oil developments and income generation of the Iranian economy"

2009 **Articles**: "Analysis of the gap between supply and demand for Chinese polymer products with an emphasis on how to strengthen Iran in this market", Due to the importance and practicality of the research, the results of the study in PowerPoint format were presented in the presence of the former deputy Oil Minister (Mr. Nejad Salim) and the main managers of the NPC.

- 2009 **Articles:** "Analysis of the polymer gap between supply and demand in CIS countries, emphasizing how to strengthen Iran in these markets", Due to the importance and practicality of the research, the results of the study in PowerPoint format were presented in the presence of the former deputy Oil Minister (Mr. Nejad Salim) and the main managers of the NPC.
- 2009 **Articles:** "A case study of developments in China's petrochemical industry by entering WTO compared to Iran, including a review of the country's leading economic developments"
- 2009 **Articles:** "Analysis of the effects of the economic crisis on the chemical industry in a wide range of countries, according to the International Monetary Fund and the World Bank"
- 2008 **Articles:** "Applied analysis of the country's currency developments based on creating economic savings for Iran's petrochemical industry"
- 2007 **Articles:** "Analysis of Iran's economic developments and how to develop a strategy to reduce dependence on oil"
- 2006 **Articles:** "Analytical economic project NETBACK; A case study of Iran's petrochemical industry"
- 2006 **Articles:** "Analytical scientific analysis of the developments of the capitalist system"
- 2006 **Articles:** "Gradual release of capital account and how to rebuild the financial sector"
- 2006 **Articles:** "The effect of agricultural liberalization on economic growth within the frame work of sustainable development", The *fifth national scientific research congress on agriculture and natural resources*, Roudehen, Iran.
- 2006 **Articles:** "The Role of the international code (HS Code) in the development of trade in petroleum products", The *fifth Congress of the Humanities and Arts Research*, Abadan and Khorramshahr, Iran
- 2005 **Articles:** "Analytical scientific study of economic corruption in developing countries"
- 2005 **Articles:** "Survey of research on the economic system and its role in economic development", The *First International Congress on Science Development, Software Movement and Free Thinking*, Tehran, Iran
- 2005 **Articles:** "Analysis of the effects of membership in the World Trade Organization on Iran's petrochemical industry"

A wide range of his other articles and studies, including:

- Comprehensive feasibility study, development of scenarios and risk analysis of a wide range of projects, including oil-based projects such as: Darab, Fasa, Jahrom, etc., Petrochemical Company, using COMFAR specialized software.
- Study of the current economic crisis in European countries by dividing crisis-stricken countries into structural subgroups.
- Investigating the economic situation and trade relations of petroleum products between the EU member states and Iran - 2008.
- Expansion of the above-mentioned study for each of the European countries in 2009, especially Spain, Italy, France, Romania, etc.
- Expansion of the above-mentioned study for each of the Commonwealth countries, including: Turkmenistan, Tajikistan, Azerbaijan, Uzbekistan, etc.
- Re-expanding the aforementioned study for Southeast Asian countries, including Vietnam, Malaysia, and even Pakistan, with an economic location approach to establishing sales offices in the face of severe sanctions against Iran over the sale and export of petroleum products.
- A case study of India from economic conditions to specialized assessment of the market situation of polymer products in this country.
- Investigating the advantages and disadvantages of supplying polymer products through Iran Commodity Exchange according to the rent obtained for basic traders.
- Study of the benefits of overseas offices in the field of export of petroleum products and how to increase their economic efficiency.
- Analytical study of the performance of newly privatized oil sub-sectors compared to the public sector - with the advantages and disadvantages.
