Nowadays, people use different ways to travel from one place to another. In the old days, people had to travel several days, weeks, and months to get to the places they wanted. They went on foot, by horse, boat or ship. After years, they went by train, car or plane.

G

Today, there are many air travels around the world, but air travel has its dangers and problems. Sometimes, the planes are too late or they aren't safe at all. For example, on Sunday, February 18th, 2018, flight No 3704 of Aseman Airline left Teharn to Yasuj in the south west of our country at 8 A.M. The plane wasn't on the radar 50 minutes after taking off from Mehrabad Airport, and it crashed into Dena Mountain. Sadly, all the passengers and the pilot died. Because the weather was snowy and cold, it was difficult to find the plane and to help the travelers.
