UVa OJ fundraising campaing

As you may already discovered by the widget shown on the left, we have started a fundraising campaing to create a whole new UVa Online Judge. Please, take a couple of minutes to read the reasons for this on the campaing website, by clicking on the widget.

Welcome to the UVa Online Judge

Here you will find hundreds of problems. They are like the ones used during programming contests, and are available in HTML and PDF formats. You can submit your sources in a variety of languages, trying to solve any of the problems available in our database.

See the new [Contest Rankings](#) section at the Live Rankings link.

Now you can use the new [Quick access, info and search](#) option on the left menu for and easier navigation. (The tool will be updated next days for a more complete information)

Follow us on Twitter [@UvaOnlineJudge](#) !!

Are you proud of your solutions? Do you have anything to show the rest of the problemsolvers?

Categorized set of problems

This book contains a collection of relevant data structures, algorithms, and programming tips written for University students who want to be more competitive in the [ACM International Collegiate Programming Contest \(ICPC\)](#), high school students who are aspiring to be competitive in the [International Olympiad in Informatics \(IOI\)](#), coaches for these competitions, and basically anyone who loves problem solving using computer programs (clik on the picture for buying it).

There are about 1300 problems arranged in categories you can access from the 'Browse
